To Whom It May Concern,

Daria Dobosz has been doing work experience at network ten at various times from February to April this year. During those 3months she has observed various productions both live (The 5pm News) and pre-recorded (Ready Steady Cook) as well as working on location and assisting the crew on shows like Totally Wild, Video Hits and Ten Total News.

Her duties on location included shot listing, time coding helping set up lights and general assisting. She was very excited and a big help during our shoot for the MTV Australia Video Music awards in April where we were located on the red carpet.

Daria's attitude enthusiasm and willingness to learn showed to me that she will become very successful in this business and I would have no hesitation in recommending her for any position in the TV industry.

Trevor Norris
Senior E.N.G. Audio Director
Network Ten
